

Static Dissipative Drum Liners

ILC Dover static dissipative drum liners provide you with the confidence to safely transfer and store a wide range of APIs and other powders. As the pioneer of flexible containment systems for the pharmaceutical industry, ILC Dover offers drum liners constructed from our durable ArmorFlex® film—the same material used in our DoverPac® powder transfer system.

FEATURES

- Clear durable film
- Chilworth tested—passes incendivity testing
- Regulatory friendly ArmorFlex films

Beyond Boundaries™.

Innovators at our core, we develop engineered solutions for our customers' complex problems. Recognized globally for our flexible containment solutions, ILC Dover serves customers in a diverse range of industries, including pharmaceutical and biopharmaceutical manufacturing, personal care, food and beverage, chemical, aerospace, healthcare and government agencies. At ILC Dover, quality is a culture, not a measurement. Our customers will tell you that we cater to their every need and that we're highly innovative, responsive, dedicated and competitive. We have been innovating since 1947. ILC Dover's visionary solutions improve efficiency, safeguard workers and product, and prevent disasters – proof that we are on the front line of business excellence. Engineering evolution beyond boundaries.
