

cGMP Raw Materials and Dry Repack Services

The integrated solution for materials supply and packaging options

ILC Dover is an industry-leading supplier of powder containment and transfer solutions. We recently expanded our dry repack capabilities and built out a cGMP raw materials portfolio, which provides a comprehensive solution to meet our customers' unique needs and end applications.

cGMP Raw Materials

Our materials comply with USP or multicompendial grade with full supporting documentation in diverse packaging formats:

- Buffer and cell culture media
- Pharmaceutical excipients
- Salts, bases, carbohydrates, amino acids, etc.

- ✓ ISO 7 Certified Cleanrooms
- ✓ ISO:9001:2015 Certified
- ✓ ISO:13485:2016 Certified
- ✓ cGMP Warehouse & Distribution
- ✓ Supplier Quality & Validation Program
- ✓ Regulatory & Technical Support
- ✓ Stability & Risk Management

Versatile Packaging Options

Dedicated to improving productivity for customers, our custom GMP packaging can be tailored to your batch-specific container sizes for raw materials or excipients. Volumes and specifications may be designed to meet customers' specific application requirements.

- Glass Bottles
- Plastic Drums HDPE
- Stainless Steel Drums
- Single-Use Bioprocess Bags

Our repacking service aims to streamline pharmaceutical production workflow and alleviate your significant investments in weighing, filling, packaging, and dispensing. Primary packaging options include:

EZ BioPac® Packaging Prefilled, trust-weighted cGMP powders in single-use handling bags dispensed directly into vessels validated in customer processes for the safest, cleanest, and most efficient total solution.

Standard Packaging Prepacked powder in competitively priced, industry-standard containers and versatile packaging solutions for an economical, flexible, and scalable solution.

cGMP Raw Materials and Repack

The most efficient solution for integrating raw materials handling with versatile packaging options.

Materials Sourcing

- Supplier management
- Order management
- Multiple sources of cGMP chemicals
- Your designated sources

Risk Avoidance

- Chemical exposure
- Product contamination

Cost Saving

- Warehouse and cleanroom
- Inventory carrying
- FTEs for weighing and packaging

Quality Assurance

- cGMP compliance
- QC inspection
- QA release and documentation

Supply Assurance

- Inventory management
- Custom stocking agreement
- Consolidate shipments from multiple suppliers

Materials Packaging

- Regular or EZ BioPac
- Trusted-weights
- Bulk and Customized solutions

Partner Service Organization

ILC Dover is committed to uncovering unique, tailored solutions to your specific goals and challenges. We're innovative in personalizing cGMP services and solving even the most complex packaging applications.

ILC Dover Advantage

- Market leader in powder handling solutions
- Meet workflow specifications in chemical grade, format, and packaging
- Access our global manufacturing network and expansive chemical portfolio
- Ensure confidence in material quality and supply chain with a trusted partner
